BACKGROUND
CARE Bangladesh is implementing the DANIDA’s Accountable Governance for Disaster Risk Reduction (AGDRR) project in Ukhiya, Cox’s Bazar with an aim to contribute to inclusive disaster risk governance and cohesion within and between Rohingya and host communities through active civil society engagement. The project has capacitated civil society and community groups to assess disaster risk in their locality in order to formulate and promote climate adaptive solutions engaging with the disaster management service providers. At the same time it has promoted social cohesion between refugee and host communities through civil society initiatives and engagement.
