PROJECT SYNOPSIS
Flood Preparedness Programme (FPP) has been initiated to reduce flood risks in flood prone areas based on the effectiveness of the Cyclone Preparedness Program (CPP) model. The objective is to build flood resilient community through enhancing flood preparedness, coping and response capacity of the community for reducing flood risks, losses and damages. This will be done through developing community volunteers for FPP, strengthening flood early warning dissemination at community level and raising community awareness on flood preparedness.

DONOR
National Resilience Programme (NRP), Department of Disaster Management, Government of Bangladesh

PROJECT OVERVIEW
1440 volunteer selected and trained to support 162,000 individuals
2 Districts: Kurigram, Jamalpur
