

PROJECT FACTSHEET

NOBADIP

PROJECT SYNOPSIS

CARE Bangladesh is implementing the USAID's Northern Bangladesh Disaster Preparedness (NOBADIP/নবদীপ) Activity through local partner organizations- MJSKS, ESDO and SKS Foundation-in Kurigram, Jamalpur and Gaibandha respectively. The Activity will strengthen the resilience and improve the livelihoods of communities in the targeted areas and is aligned with USAID Bangladesh 2020-2025 Country Development Cooperation Strategy's Development Objective 3: Strengthened Resilience to Shocks and Stressors. It will scale Strengthening Household Ability to Respond to Development Opportunities- III (SHOUHARDO III)'s plinth raising activities and Flood Preparedness Program's (FPP) community flood preparedness, coping and response capacity enhancement and expand geographic targeting beyond present CARE project areas. As a whole, NOBADIP will achieve its goal by reducing most vulnerable flood-prone char dwellers risks through scaling-up flood-resilient shelter improvements and flood preparedness initiatives.

Operates in Chilmari and Nageswari in Kurigram, Sundarganj and Fulchari in Gaibandha & Islampur and Bakshiganj in Jamalpur.

TARGET, DURATION & BUDGET

459 household plinth-raising
24 community plinth-raising
12 union-level community flood volunteer groups

15 July 2021–14 October 2022

DONOR: United States Agency for International Development (USAID)

BUDGET: US\$ 1.00 Million

PROJECT APPROACH

Flood Resilient Shelter & Settlement

Community Engagement

Capacity Strengthening in DRR and Preparedness
